Dear Friends,

Shree Bidada Sarvodaya Trust has the privilege of serving the community for the 46th year. With the help of incredible volunteer doctors, dentists, allied health practitioners, general volunteers, and our generous donors, we provided 26,160 outpatient examinations, 11,942 prescribed treatments, 727 surgeries and procedures, and referred 446 patients to other centres for higher level consultation or surgeries. This is all free of charge during our annual camp.

Vijay Chheda

Highlights of this year include our scabies treatment in high school dorms. Over 4000 youth were treated for scabies, which included decontamination of the entire school dorm, while providing preventive education, extra medication and strategy to prevent reinfection. There are plans to treat another 2000 youth in other school dorms. Our cancer awareness program taught 700 women about breast screening, with advice for them to teach other women in their communities.

After decades of work we can see positive trends. The number of patients for cataract surgery has been going down year by year. This is because so many people have been treated, and there are other cataract centres and camps around Kutch. The number one cause of blindness is being reduced. Urology patients used to have kidney stones as large as 4-5 cm, but now the trend is less than 2 cm. This shows we have treated the most serious patients, and the burden of stones is going down due to our efforts. The reduction in a stone size achieved by excellence urology support from Dr. Mahesh Desai and Muljibhai Urological Hospital - Nadiad for past 10 years.

As a this always, were are running regular specialty camps throughout the year for pediatrics, gynaecology, orthopaedics, cardiology and many other specialities. These are essential for follow up and year round availability of medical specialized medical care. As more hospitals develop in the area, we will strategically focus on areas that are underserved.

In these difficult times with concerns about the new Corona Virus, we are wishing for the safety of all, and our united efforts for compassion and teamwork now and for years to come.

With Regards,

Vijay Chheda
